 Fayette County

 Major Street - Good for Bicycling
Streets generally have low or slow moving traffic and some separation between bicycles and vehicles.

 Major Street - Fair for Bicycling
Streets generally have moderate traffic and some interaction between bicycles and other vehicles.

 Neighborhood Street
Streets not evaluated, but are typically good for bicycling due to low traffic volumes and slow moving traffic.

 Other Major Street

 Public Park

 Public School

Bicycle-Friendly Street Ratings

Major street ratings of 'good' and 'fair' are based on roadway width, traffic volume, pavement condition, vehicle speeds, and the location and use of on-street parking. The ratings are for informational purposes and do not imply a recommended route. Roadway conditions may change based on time of day, traffic conditions and roadway hazards.
